### **Description**

Feel on top of the world at the summit of Mount Pilatus, with this fascinating full-day guided tour to one of the most famous peaks in the Alps. Take a rotating gondola ride to the top, hike to the summit and descend aboard the world's steepest rack railway before returning to Lucerne by ferry.

We'll bring you to the picturesque town of Kriens, which nestles at the foot of Mount Pilatus. From here, we'll take the panoramic gondolas and cable cars to reach the top, which is more than 2,000 metres (7,000ft) above sea level. Enjoy the spectacular view over the surrounding mountains and lakes, stop for a bite to eat or hike to the summit.

The descent involves yet more adventure as you board the world's steepest rack railway, with a gravity-defying 48% gradient. Watch the goats and cows chew the cud without a care in the world as you gently come down at a safe 9km/h during this scenic ride through meadows carpeted with alpine flowers, past sparkling mountain streams and into rock faces before reaching the lakeside hamlet of Alpnachstad. During summer from here you will board a ferry for a scenic one-hour cruise to Lucerne on the Lake of the Four Forested Cantons (as Lake Lucerne is romantically called in German). For those who join the tour during winter, instead you will enjoy lunch on top of Mount Pilatus with a backdrop to remember.
